TEMITOPE OLOWOSUYI

Frontend Engineer | React • Next.js • TypeScript

Lagos, Nigeria • linkedin.com/in/temitope-olowosuyi • github.com/Topsurpass

PROFESSIONAL SUMMARY

Results-driven Frontend Engineer with 3+ years of experience building high-performance, scalable web applications using React, Next.js, and TypeScript. Proven track record in UI/UX implementation, component-driven architecture, performance optimization, and API integration. Experienced in Agile environments with a strong eye for pixel-perfect, accessible, and responsive interfaces. Passionate about delivering exceptional user experiences through clean, maintainable code.

WORK EXPERIENCE

Frontend Developer

Jul 2024 – Present

Dash Global Technologies (Cross Africa) | Lagos, Nigeria

- Architected and developed the Cross Africa public-facing landing page and dual-sided vendor/buyer dashboards using Next.js 14 (App Router) and TypeScript, serving thousands of logistics users across Africa.
- Integrated all RESTful API endpoints from the backend, implementing robust error handling and loading state management with React Query / TanStack Query.
- Participated in code reviews, pair programming sessions, and Agile sprint planning, contributing to a culture of high code quality.
- Resolved critical bugs across legacy applications, improving application stability and user retention.

Lead Frontend Developer

Feb 2022 – Nov 2024

Flexwork | Ife, Osun, Nigeria

- Led frontend development of responsive, cross-browser-compatible web applications using React.js, Next.js, TypeScript, and Tailwind CSS, supporting the company's SaaS customer service platform.
- Optimized Core Web Vitals and client-side performance through lazy loading, code splitting, image optimization, and efficient caching strategies, reducing page load times significantly.
- Implemented efficient state management using Zustand; managed server state with React Query / TanStack Query for real-time data synchronization.
- Integrated third-party and internal RESTful APIs using Axios and the Fetch API; applied Zod for schema validation and React Hook Form for form management.
- Maintained Git version control discipline following GitFlow workflows; onboarded and mentored junior developers on frontend best practices.

PROJECTS

Intranext – eLearning Platform

Nov 2024 – Present

Full-stack eLearning platform | Next.js, Tailwind CSS, Django, MySQL

- Built a fully featured eLearning platform enabling students to access lectures, read materials, take exams, and submit assignments, with a clean and scalable UI.
- Developed the backend RESTful API with Django and MySQL, handling user authentication, course management, and exam submissions.

Job Board API

Feb 2025 – Mar 2025

Backend REST API | Django, PostgreSQL

- Designed and built a production-ready Job Listing RESTful API with Django and PostgreSQL, supporting CRUD operations, filtering, and pagination.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, Python, HTML5, CSS3
Frontend	React.js, Next.js 13/14, React Query, TanStack Query, TanStack Table, Zustand, React Hook Form, Axios
UI / Styling	Tailwind CSS, ShadCN UI, Headless UI, Material UI (MUI), Responsive Design, Cross-browser Compatibility
Backend	Node.js, Express.js, Django, RESTful API Design & Integration
Databases	PostgreSQL, MySQL, MongoDB
Tooling & DevOps	Git, GitHub, GitFlow, Code Review, Performance Optimization, Webpack, Agile/Scrum
Testing & QA	Component Testing, Bug Fixing, Debugging, Browser DevTools
Validation	Zod, React Hook Form, Form Validation Patterns

EDUCATION

Software Engineering Programme *Nov 2022 – Jan 2024*

Holberton School (ALX Software Engineering Programme)

Coursework: C Programming, Python, JavaScript, Networking, DevOps, Databases

Bachelor of Technology – Industrial Chemistry *Jan 2015 – Dec 2019*

Federal University of Technology, Akure | Second Class Upper Division

CERTIFICATIONS

ALX Software Engineering – ProDev Backend	*Mar 2025*
ALX Software Engineering – Backend Development	*Jan 2024*
Front-End Development Libraries	*Oct 2022*
JavaScript Algorithms and Data Structures	*Jun 2022*
Responsive Web Design	*Apr 2022*
HTML & CSS	*Mar 2022*
